IMPORTANT RODEO INFORMATION:

We're excited to give you your rodeo schedule and look forward to seeing you on your scheduled dates. Please make sure to be on time, but most importantly be safe in your travels.

As our 21 day work schedule for the 2013 Rodeo is about to begin; we wanted to let everyone know and make sure that you all understand that we will not be keeping regular office hours during the whole month of Rodeo.

If you have an emergency or need to cancel on the day you are scheduled to work, please give us a call and continue to call until someone answers; always remembering to leave a message. All changes and adjustments without charge have been made. Anything after today, you will have to discuss with Leslie.

SB – STANDBY

If you see a **SB** on your schedule, what does this mean?

SB – (StandBy) this is letting you know that you have informed us that you are available to work. Although you are on standby, if and when we call you in to work and you fail to show you will still be charged the $25 no show fee. If we don't call you into work, you will not be charged the no show fee.

Please don't become discouraged if you see SB, because in this environment, things change on a daily basis. We will be very diligent in communicating changes.

RODEO PAYCHECK

Your 2013 Rodeo check will be processed on **Wednesday, April 10, 2013** and placed in the mail the following morning. If you happen to miss any of your scheduled dates, we would need to have received any and all documentation justifying why you were not able to make your date; no later than Wednesday, April 3, 2013.

If you lose any paperwork and need to reprint any of the documents we've given you, please go to our web-site, **www.safarimarketinggroup.com** , click on BLOG and scroll down to the RODEO INFORMATION blog entry.

We look forward to making this year's Rodeo as successful as the previous. Please remember that Safari is only as good as its contractors and you play an important role in your own success and the success of Safari Marketing.
